I added one word and period at very end.
Lovely.

Memorandum

Subject: Weekly Activities for the Week Ending 02/03/2011
From: Steve Armann
RCRA Corrective Action Office, WST-5
To: Jeff Scott, Director
Waste Management Division

I. Hot Issues

II. Current Activities

Waimanalo Gulch Hawaii Landfill Emergency Response - On Friday, January 28, 2011, we conditionally approved the reopening of the landfill to accept solid waste. The conditions of approval include limits on placement of waste within Cell E6 and submission of a workplan for repair of the western edge of Cell E6, a **stormwater** contingency plan, and a revised Stormwater Pollution Control Plan. Waste Management continues to enhance temporary measures to handle a major storm event while they forge ahead with construction of the permanent stormwater diversion system which is required to be functionally complete by February 15, 2011. EPA no longer has staff on-scene. Periodic on-scene compliance monitoring is being conducted by Hawaii Department of Health. WM is currently in compliance with our Order. (Armann-23352)
